Happy Birthday!
The Society for Foot and Ankle Surgery (GFFC) turned 20

DARCO and GFFC look back on many years of success and cooperation. DARCO has always been dedicated to support scientific symposia, seminars and workshops. From day one of our cooperation with GFFC, we were able to meet and work directly with the medical community; receiving invaluable, open and honest feedback on our ideas and finally our products. DARCO’s close cooperation with foot surgery specialists, medical associations and biomechanical institutions from around the world is our basis for innovative product research and development. These long-term relationships have allowed us to develop groundbreaking advancements in the industry as well as maintaining the highest quality standards for our products.

With 520 attendees and 76 faculty members, the 24th International Symposium for Foot Surgery in Munich was record-breaking and a great success for GFFC and DARCO. DARCO is excited about the future and the challenges in 2017, knowing we will face them together with our valued partner GFFC.
